INTRODUCTION

It's an Apps World

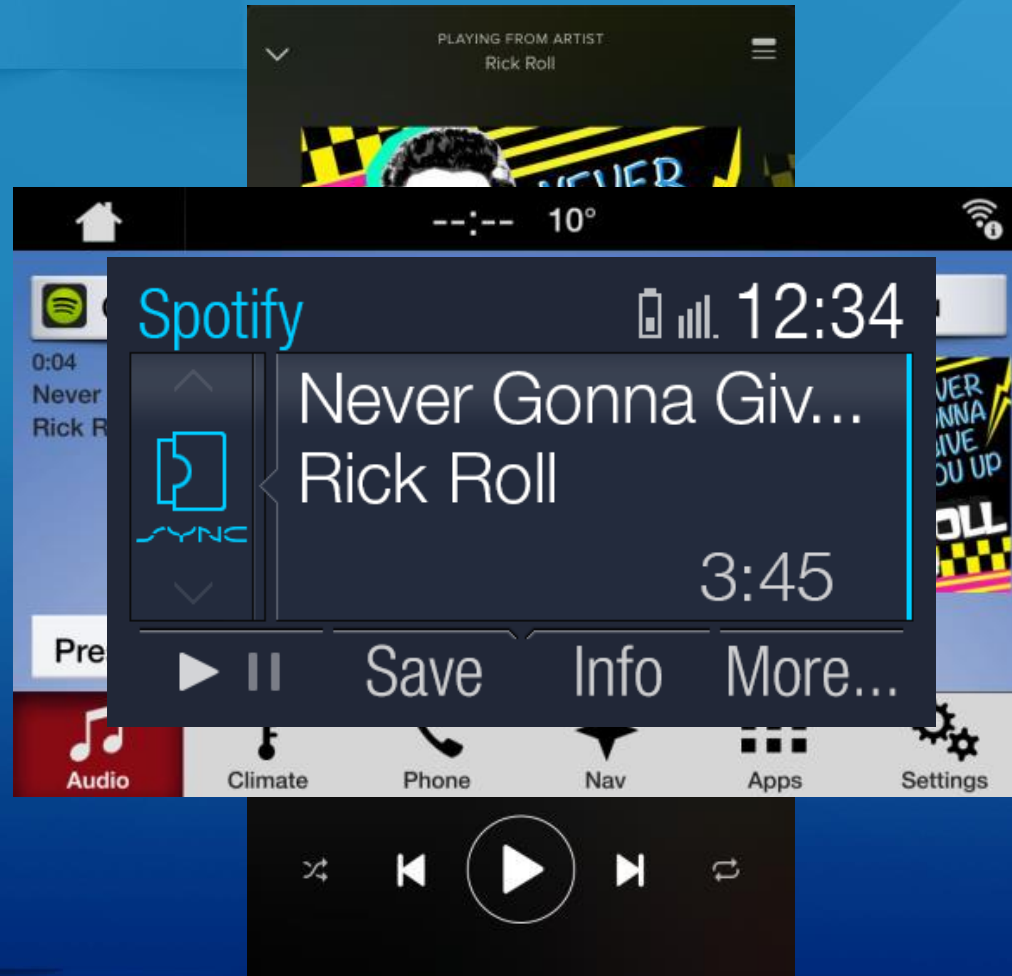

- 1.5 million apps are now available on the App Store.
- 100 billion apps have been downloaded from the App Store.
- 850 apps are downloaded every second.
- The average person has 119 apps.

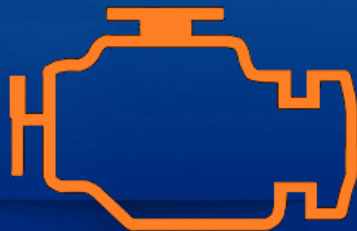

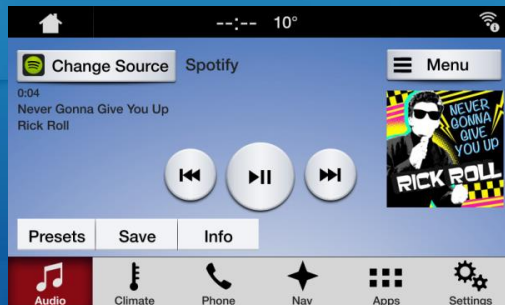

SMARTDEVICELINK

The Transformation

Driveables

- Voice Recognition
- Center Stack Buttons
- Steering Wheel Controls
- Display Information
- Text to Speech (TTS)
- Send notifications from background
- Vehicle Data
 - GPS
 - Odometer
 - ...and many more

Apps and use cases

Spotify

Die Welt

Glympse

Alexa

Entertainment

- Music player
- Audio Books

Information

- News
- Voice Services
- Location based services

Innovative use cases possible

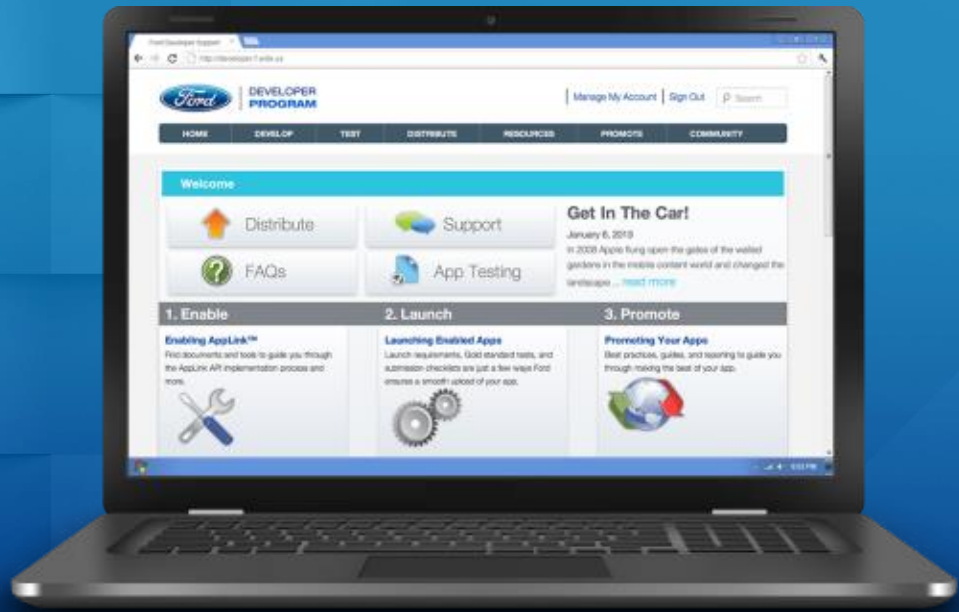

Audioteka

Restrictions

Code Access, Contribution, Discussion

A screenshot of the GitHub repository page for smartdevicelink / sdl_core. The page shows the repository name, a description 'SmartDeviceLink In-Vehicle Software and Sample HMI', and statistics: 365 commits, 10 branches, 3 releases, and 2 contributors. It displays the current branch 'develop' and a list of recent commits, including 'Bug Fixes and Improvements' and 'Merge branch 'release/4.0.0' into develop'. The right sidebar contains links to Code, Issues (30), Pull requests (7), Wiki, Pulse, and Graphs. At the bottom right, there are buttons for 'Clone in Desktop' and 'Download ZIP', along with the HTTPS clone URL.
